EDUCATION

Professional training Node JS in Delicious-insights -2018
Bachelor Level · 2006

PROFESSIONAL EXPERIENCE

Orsys - Ib-cegos - Ambient It - PLB Training center

Senior Trainer · Freelance · Duration: February 2023 - Present

Expertise in Digital Transformation & Generative AI : Designed and delivered training programs for project managers and executives on the challenges and strategies of digital transformation, with a focus on generative AI and its practical applications across various industries

Advanced Technical Training : Conducted in-depth courses on Node.js, Microservices, Microfrontends, React, Advanced React, Vue.js, Angular, and Cloud Services. Customized training content for participants from major organizations, including CPAM, Centre Hospitalier de Liège, SFR, and La Banque Postale.

Multinational Training Engagements : Delivered training sessions in France, Belgium, and Luxembourg, covering the latest technologies and development methodologies for professionals from various industries, enhancing their proficiency in modern development tools and application architectures.

Programmes incluant l'introduction aux IA Génératives (distinction avec IA discriminative, réseaux de neurones classiques aux transformers, l'émergence du Deep Learning et du Self-Attention)

Cybersecurity & Cloud Foundations:
Provided modules introducing pentesting fundamentals, threat modeling, secure coding, and cloud security best practices across AWS and Azure. Integrated cybersecurity principles into development and architecture training.

[Digital Transformation, Generative AI, Microservices, Microfrontends] [React, Node.js, Vue.js, Angular, GraphQL] [Digital Transformation, Generative AI, Microservices, Microfrontends] [Cloud Services: AWS, Azure] [Cybersecurity, Pentest]

Merena

Technical Founder · Duration: September 2023 – Present

Generative AI & AI Engineering:
Designed and implemented GenAI solutions: autonomous agents (LangChain, CrewAI), LLM integrations (GPT, LLaMA, Mistral), RAG pipelines, and AI-driven workflows. Strong focus on prompt engineering and multi-agent orchestration.

Business Intelligence & Data Systems:
Built BI dashboards, analytics pipelines, and automated reports to support product, marketing, and operations. Developed scalable models for segmentation, growth tracking, and performance insights.

Technical Growth & Web Marketing:
Worked with the growth team to build optimized funnels, automation flows, tracking systems, and A/B tested journeys, improving acquisition and retention.

Team Enablement & Documentation:
Created technical documentation, roadmaps, and processes ensuring smooth collaboration across engineering, marketing, and operations.

Ongoing Support: Provided continuous support to optimize collaboration between the technical and non-technical teams within startups.

[React · Next.js · Node.js · Python] [GCP · AWS · Firebase]
[LangChain · CrewAI · LLMs (GPT, LLaMA, Mistral) · RAG] [BI Dashboards · Data Pipelines · Automation]

Cofondateur.fr

CTO & Startup Advisor · Freelance · Duration: August 2023 - August 2024

Technical Advising: Conducted need assessments, identified suitable technologies, and developed technical roadmaps for startup projects.

CTO Profiling & Onboarding: Led the search and selection process for CTO candidates, facilitated their integration into startup teams.

Documentation & Planning: Assisted in the creation of technical specifications and roadmaps, ensuring alignment with industry best practices.

Expertise en développement d'IA générative incluant LangChain pour la création d'agents autonomes, l'intégration de LLMs (GPT, BERT, T5, LLaMA, Mistral), le prompt engineering avancé, la gestion de contextes et tours de conversation, la génération de contenus et résumés, les agents autonomes (AutoGPT, CrewAI), et les applications professionnelles en marketing, prototypage, et développement.

Ongoing Support: Provided continuous support to optimize collaboration between the technical and non-technical teams within startups.

[LLms, LocalGPT & AI Agents] [React, Node.js, GraphQL, Python] [AWS] [Solidity]

HEADN & PSTB - Schools

Trainer · Freelance · Duration: October 2023 - June 2024

Advanced Technical Training : Conducted in-depth courses on AWS, Generative AI, Cloud Services. Node.js, and React.js

[LLms, LocalGPT & AI Agents] [React, Node.js, GraphQL, Python] [AWS] [Solidity]

YouAreclucky - SoftwareLoyal

Senior Fullstack Developer | Cloud Engineer · Freelance · Duration: January 2020 - Present

DELL Project: Designed a cloud platform for managing customer data and invoices for DELL, using Serverless architecture for data processing and Cloud Functions for automated tasks.

Accengage Project: Developed a push notification system for managing advertising campaigns for Accengage, using Serverless architecture and Cloud Functions for specific actions..

Altavia Project: Developed an advertising print management platform for Altavia, using Serverless architecture and Cloud Functions for print management, billing, and inventory management.

Designing and developing cloud solutions for clients

Developing new features for existing applications

Maintaining and improving existing applications

Scraping/website data extraction

Managing the entire application life cycle, from design to deployment

Collaborating with DevOps teams to ensure solutions are optimized for performance, security, and availability.

Implementation of unit and end-to-end tests

Code versioning with Github & Code Review

Implementation of continuous integration with Gitlab CI/CD

[REACT NATIVE] [NODE.JS] [EXPRESS] [MONGO] [REST AP] [REACT][REDUX] [SOLIDITY] [PYTHON] [GPC][AZURE] [AWS]

JS-Attitude

Fullstack Developer | Cloud Engineer · Freelance · February 2017 - December 2019

Axa Project: Developed a Serverless architecture-based website to provide information and resources to Axa employees.

Vinci Project: Developed a Serverless architecture-based mobile application to encourage drivers to take regular breaks during long trips for Ulys, Groupe Vinci.

Designing and developing cloud solutions for clients
